

BASEHARBOR

CORPORATE IDENTITY

v1.0 / 2026

Build. Run. Control.
Everywhere.

BaseHarbor

BUILD • RUN • CONTROL • EVERYWHERE

Brand foundation

The identity mirrors the product: technical, secure, open, portable and developer-first.

SECURE

Fail closed, least privilege, explicit trust boundaries.

MODULAR

Capabilities are building blocks, not a monolith.

OPEN

Standard protocols and provider-neutral contracts.

PORTABLE

Same application intent across runtimes and environments.

THE BRAND EQUATION

Harbor stability + developer freedom + infrastructure precision

The visual language should feel dependable first, modern second, playful only where the mascot is used.

Master artwork

Use the supplied artwork exactly. No redraw, no tracing, no replacement typeface for the wordmark.

PRIMARY LOCKUP

Clear space

Minimum clear space: one orange beak-height around the visible artwork.

Minimum size

Full lockup: 320 px digital. Icon: 32 px digital.

Backgrounds

Prefer white or Harbor Navy. Keep contrast high.

Canonical rule

The raster masters are the source of truth until a dedicated vector master is approved.

ICON / MASCOT MARK

The harbor bird

The mascot carries personality. The logo carries recognition. Keep those roles separate.

CHARACTER TRAITS

ALERT

FRIENDLY

TECHNICAL

Use it for

Docs onboarding, release posts, community, CLI success states, stickers and conference material.

Do not use it for

Security warnings, incident/error states, legal notices or dense product UI controls.

Visual rule

Do not change anatomy, eye graphic, beak color, feather pattern or wave geometry. Scaling/cropping is allowed.

Tone

Confident and curious, never childish. It is a technical navigator, not a cartoon sidekick.

Color system

Dark infrastructure tones, strong electric blue, one warm signal accent.

Harbor Navy

#0B152A

Primary background / text

Deep Navy

#0F192A

Depth / dark UI

Ocean Blue

#0068E9

Primary action / links

Signal Blue

#0583FB

Highlights / focus

Harbor Orange

#F96509

Mascot / signal accent

Mist

#E3EAF1

Borders / soft surfaces

Steel

#1D2B47

Secondary dark

White

#FFFFFF

Primary light surface

Typography

The wordmark remains artwork. Product typography is clean, technical and highly readable.

INTER

Aa

Interface / web / docs / marketing

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz 0123456789

JETBRAINS MONO

baha>

CLI / code / technical identifiers

\$ baha up

runtime ready

Recommended weights: Inter 400 / 600 / 700

Messaging system

Short, concrete and engineering-led. Avoid cloud-marketing language and vague transformation claims.

PRIMARY TAGLINE

Build. Run. Control. Everywhere.

PRODUCT DESCRIPTOR

Secure, modular, self-hosted backend infrastructure.

Say

portable contracts
standard interfaces
provider-neutral
secure by default
self-hosted

Avoid

magic platform
all-in-one cloud
zero effort
revolutionary
lock-in wording

CLI voice

Ready.
Blocked: reason.
Action required.
No hidden side effects.
Machine-readable when useful.

Developer-facing applications

CI should feel native in terminals, docs, GitHub, dashboards and product surfaces.

```
$ baha app init
```

```
$ baha up
```

```
✓ capability negotiation complete
```

```
harbor ready
```

BaseHarbor Docs

[Capabilities](#) [Providers](#) [Security](#) [CLI](#)

[Get started](#)

01 Use Ocean Blue for primary actions; reserve Orange for signal/brand accent.

02 Use Harbor Navy for terminal and technical surfaces.

03 Keep mascot out of dense controls; use the icon in navigation and social avatars.

04 Prefer 8 px spacing increments in UI and generous whitespace in marketing.

Asset matrix

All derivatives below come from the supplied artwork. No visual redesign has been introduced.
